David.Talbot@quarryfoldstudio.com

Carl Bothamley has been employed by Quarry Fold Studio for almost 10 years. During this period, I have worked alongside Carl on a huge number of varied projects across the leisure and architectural industries. His input is always valuable and productive.

Working primarily in the theme park industry Carl is a CGI specialist but has many complimentary skills such as graphic design, motion graphics, animation and photo manipulation. He has a good technical brain. He is a very organised, hardworking and popular team member, always keeping up to date with developments in software and industry trends. He is a quick learner and can quickly turn his hand to a diverse range of tasks.

It is unfortunate for Quarry Fold Studio that, due to economic conditions, we must restructure our organization and lose a valued employee such as Carl.

I would recommend him without reservation for any position or career that he may choose to pursue. I have no doubt he would be valuable employee in any organisation.

If you have any additional questions, please do not hesitate to call or email me.

Craig@Scorpiocgi.co.uk

Carl has worked for me on many projects, He has a very methodical approach to his work, asking pertinent questions from the start, and so needing minimal ongoing input to allow the tasks to be completed.

He's a strong all-rounder being able to model, texture, and light with competence.

As well as his knowledge of Lightwave 3D, Carl also has a solid working knowledge of Adobe Applications including Photoshop, After Effects and Illustrator to mention a few.

In the working environment Carl is a strong team player, able to work closely with others, and I would expect him to add great value to any studio or team.
